## Roll on 2018

Greetings from Fit Kit Systems for 2018. Whether you are buried in a blizzard or sweating under a southern sun, we wish you fun and adventurous rides this year.

Share the joy of cycling with your customers, and make sure you get in some for yourself too. I'll be heading out for 2 weeks on the Continental Divide!

## February Workshop with CyclePoint

Paul Swift of CyclePoint and I are teaming up to present a 3 Day bike sizing and fitting workshop Feb 23-25 in Salt Lake City. Get Fit Kit bike sizing training and Level 1 BikeFit Education at the same time and place for a reduced rate.

## Fit Kit Web App

Another reminder that the Fit Kit numbers are now available through a web app, as an alternative to the slide chart or mobile app, and is FREE for the standard calculations. Subscribe to add a cyclist name and email address to save the data and generate a one page PDF report.

We consider this a BETA launch, and your feedback will influence future development.

CABDA EXPO

We will be exhibiting at the 4th CABDA Expo in Chicago in early February. If you are in the area we hope you can attend this energetic and informative tradeshow. Seminars include a bike fit discussion and demo by veteran fitter Happy Freedman. Click on the CABDA image for the show website.
